

Printing Help

If you only need to print a portion of the newspaper page:

1. Use the graphics selection tool to highlight the portion of the page you want. This tool selects the entire area not just the text.
2. Click on the printer icon
3. Click on the button next to "Selected Graphic"
4. Click Print

If you do not have an adobe tool bar at the top of your screen:

1. Click on the Acrobat icon, it looks like an artistic triangle
2. A tool bar should now appear above the pdf image of the paper

If you cannot find the graphics selection tool:

1. Right click on an empty spot of the Adobe tool bar
2. Move the cursor over "Edit"
3. Click on the "snapshot tool"
4. A camera inside a dotted box should appear in the Adobe tool bar
